HMS CAMBRIA Congratulation to two ratings from HMS Cambria, Leading Hands Bill "Pedlar" Palmer and Steve "Scooby" Drew who attended the 6th International St Barbara Shooting Competition held in Liestal, Switzerland over the weekend of 8/10 October 2010. The event is open to military and police reservists from all European countries and there were 179 competitors from 11 countries taking part this year (Austria, Finland, France, Germany, Hungary, Italy, Luxemburg, Netherlands, Russia, Switzerland and UK). The weapons used included the Sturmgerwehr 57 and 90 assault rifles and the SIG P220 9mm pistol.

A good days shooting was had by all with Bill and Steve obtaining respectful scores finishing mid table.

Bill said, "It has been worthwhile attending this event as not only did we have the opportunity to use weapons we would not normally have access to but we also made friends with many of the other competitors; so much so that invites were received to go to shoots in Hungary and Germany next year and also to return to next years shoot in Switzerland that is due to take place on 16 April!"

The involvement of the RNR at the event was sponsored by the United Kingdom Reserve Forces Association.
